About the Conference

The Fourth International Conference on Information Systems in Higher Education was held on 5 September 2025 from 9:30 AM to 5:00 PM at Paragon International University in Phnom Penh, Cambodia. The conference brought together researchers, educators, and professionals to share research and practical experiences related to the use of information systems in higher education. The theme of the conference focused on empowering higher education through intelligent systems and digital ecosystems, highlighting the growing role of digital technologies in teaching, research, and university management. Participants presented original research papers, case studies, and reports that were reviewed through a formal peer review process. Accepted papers were published in this proceeding to support citation and academic visibility. The event reflected Paragon International University's commitment to promoting research, collaboration, and academic exchange at the international level.
